

## Member-Friendly Software for **Successful Chapters**

StarChapter makes it easy to grow your membership, attendance, & revenues, while giving board productivity a boost for years to come

### Event Registration

**Manage the complete event registration cycle in one place.** Set up your board meeting or event information to display on the website, email invitations or announcements, ticket prices and rates. Simple yet professional looking registration forms that are integrated on your website make the entire process member-friendly. You can also track registrations, no-shows, cancellations, revenues, member and guest counts, print badges, send invoices and receipts, and even manage walk-ins.

### Communication

**Send out newsletters, event invitations, surveys, dues reminders or welcome new members in minutes.** With everything in one place, you can even create targeted emails from the information that is already in the system, saving you time and keeping a professional look.

### eCommerce

**Create an online store to sell chapter merchandise or charge meeting fees to grow your chapters's revenues.** With StarChapter, you can manage payment processing in a secured software, fully integrated into your website. StarChapter offers many different solutions to fit your eCommerce needs.

### Membership Management

**Keep your member and non-member data up to date and accurate.** You can track and send statements for receipts or fees owed for dues or past meeting registrations. StarChapter even helps you group your member data into member, business committee type.

### Website & Content Management

**Master your new StarChapter website.** Your StarChapter website includes everything your members need right out of the box, customized website to fit your chapter. Many types of contents are included in your StarChapter website such as blogs, forums, media, forms, and photos.

### Board & Management

**Optimize your software based on the administrator.** StarChapter offers special tools to help different administrators in your chapter perform their jobs, from the president to the treasurer and even the communication chair.

## StarChapter has been around for years **helping chapters grow**

Reach out to our experienced Support Team and browse through StarChapter's self-help knowledgebase for easy-to-follow articles and video tutorials

### Self-Help Knowledgebase

**Get unlimited access to our self-help Knowledgebase** including user guides, documents, and video tutorials. Type in your question and get the answer you need in seconds. There are even step-by-step instructions to accomplish almost any task in your StarChapter system. Whether you're the program chair, president or treasurer, we have the video tutorials just for you.

### Phone Support

### Development and Upgrades

We are always listening to our customers and implementing new features based on your needs and latest research. **We release new features on a frequent basis and as enhancements are released they are immediately integrated to your StarChapter system.** Follow us on social media and sign up to our monthly newsletter to stay tuned for the latest developments. We will also send you our monthly newsletter with the latest news and tips on how to best run your chapter.

### Dedicated StarChapter Specialist

Getting over the hurdle of setting up a new website, migrating all the content and data can be daunting. StarChapter lifts that burden off your shoulders. **We'll assign you with a Dedicated StarChapter Specialist,** an experienced guide to help setup your service, train you and your board, and coordinate the project for you from kick-off to launch.

### Ongoing Board Training

**Get unlimited access to our ongoing board training webinars** to help you get the most out of your StarChapter software. We offer a variety of training webinars such as Communications & Content, Meetings & Membership, and Treasury Training. You can also schedule a dedicated training when new members join the board.

### Security & Stability

**Data, information, privacy and PCI compliance** are all important aspects to consider when running a website. Our data center employs hacker-deterrent security provisioning, three redundant network architectures, and passes all SSAE-16 (formally SAS-70) requirements.
